REQUEST BY NEW CINGULAR WIRELESS PCS, LLC d/b/a AT&T
TO INTERVENE IN THIS PROCEEDING

Pursuant to Section 16-50n of the Connecticut General Statutes and Section 16-50j-15a of the Regulations of Connecticut State Agencies, New Cingular Wireless PCS, LLC d/b/a AT&T ("AT&T") respectfully requests permission of the Connecticut Siting Council ("Council") to participate, as an intervenor, in Petition No. 809 (the "Petition") as recently submitted by Extenet Systems, Inc. ("Extener"). AT&T is licensed by the Federal Communications Commission ("FCC") to construct and operate a personal wireless services system in various areas of the United States of America including the State of Connecticut in order to provide PCS and Cellular services to the public.

As set forth in its Petition, Extenet is attempting to develop a distributed antenna system ("DAS") for use by FCC licensed wireless carriers along a 20 mile portion of the Merritt Parkway. The plan as submitted by Extenet calls for: (1) use of existing distribution poles as support structures for numerous DAS antenna nodes installed on cables spanning the parkway; (2) construction of new poles as antenna support structures for various DAS nodes; and (3) development of two base stations in as of yet unspecified locations. While not a FCC licensed wireless carrier, Extenet hopes to develop its Merritt DAS network for possible use in the future by wireless carriers and has been certificated

CERTIFICATE OF SERVICE

I hereby certify that on this day, an original and twenty one copies were served on the Siting Council by fax and overnight mail with a copy served by fax and first class mail on the following:
